JK Engineering

<https://www.jkengineering.co/>

We have widely acknowledged Manufacturer and Wholesaler firm playing a dominant role by developing high performing Pharmaceutical Equipment and Accessories.

About Us

JK Engineering is most consistent Manufacturer and Wholesaler firm founded in the year **2009** to bring forth high performing SS Trolley and Dust Bin. Our objectives to extend industrial concept in the country equips us to leverage the technological advancements to design and develop an extensive range of most modern equipment which includes SS Big Stool, SS LED TV Stand, MS Drawer and SS Basket. Our developed innovative product line bears the testimony of our pioneering experience in assuring robust designs, compact models, high-performance, user-friendly operation, least maintenance requirements and most equitable price bands.

Our unique capabilities to listen to the long unmet client needs to earn us the confidence of retail chains, small town bakers, flight kitchens and even five-star hotels across the country. We take pride in our modernized manufacturing facilities that we are capable to broaden our product portfolio by developing machines for bread plant, toast, bun, muffins, cookies filled products, and large cakes. We have gained the allied support of renowned vendors from importing countries that provide us with industry proven components for developing best quality baking machines at the most equitable price.

Mr. Jitendra Patel is backed with a visionary approach that promotes the ethos of client-focused business decisions. His rich industrial expertise inspires us to design premium quality equipment with the assurance...
